Right?

Change Management is Your Key to Success

Case for Change

Many have become accustomed to a BI team, FP&A, or other Analytics dept “doing the work”

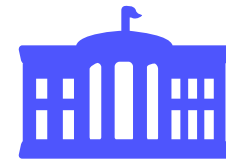

What’s the case for someone to get insights themselves?

Sponsorship

The one thing you must get right.

Without an active sponsor who has authority of those affected by the change, adoption will suffer

Governance

Well established rules on who can publish, what is “certified”, use of common metrics and repositories.

Reinforcement of this has to occur or instant insights will become instant chaos.

It All Starts With Culture

“Culture eats strategy for breakfast”

– Peter Drucker

Understand Your Culture

Knowing how people respond to change in your organization will help plan and determine what change management actions to use

Building an Effective Business Intelligence CoE at Fannie Mae

About Us

Theresa Marvin

theresa_marvin@fanniemae.com

Worked at Fannie Mae for 20 Years

Enjoys spending time with family and coaching basketball and track & field

Mei Yu Chen

mei_yu_chen@fanniemae.com

Worked at Fannie Mae for 6 Years

Enjoys playing board games and trying out new recipes

About Fannie Mae

Fannie Mae is a leader in providing housing finance for homebuyers and renters in the United States. We serve the people who house America. Together with our partners, we make sure that homeowners, homebuyers, and renters across the country have access to affordable financing opportunities.

Our Transformation

In the past...

- Different versions of many tools
- Significant overlap between tools
- Decentralized platform administration
- Independent and siloed technology evaluation and adoption

Our Transformation

In the past...

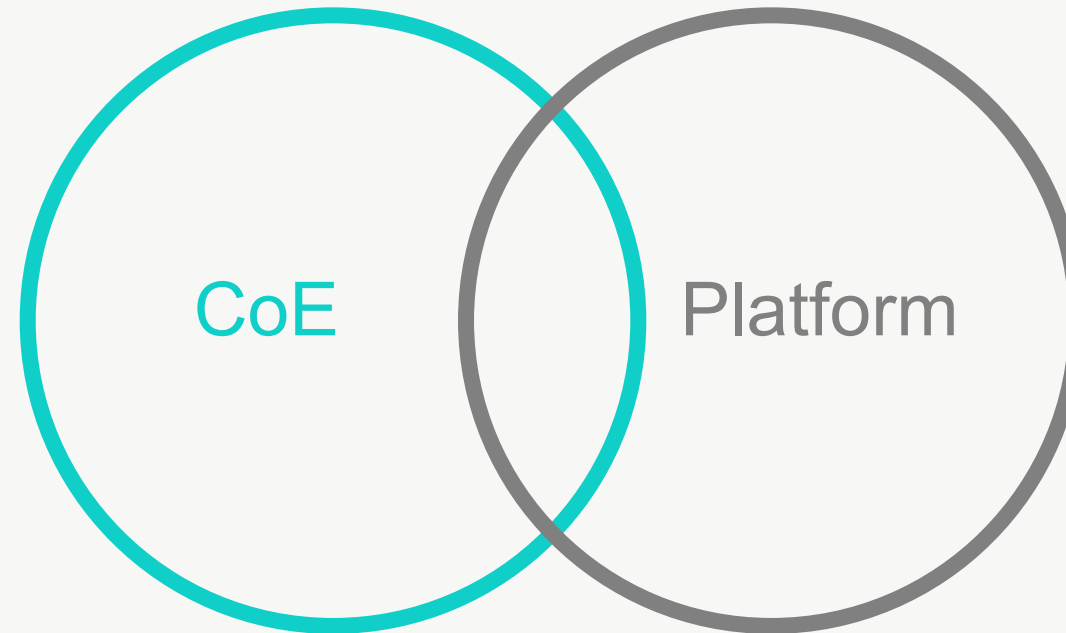

- Different versions of many tools
- Significant overlap between tools
- Decentralized platform administration
- Independent and siloed technology evaluation and adoption

...Today

- Centralized BI CoE
- Centralized platform support team
- Rationalized tool strategy that is constantly evolving with business needs and industry trends
- Mature customer enablement program

Organization & Roles

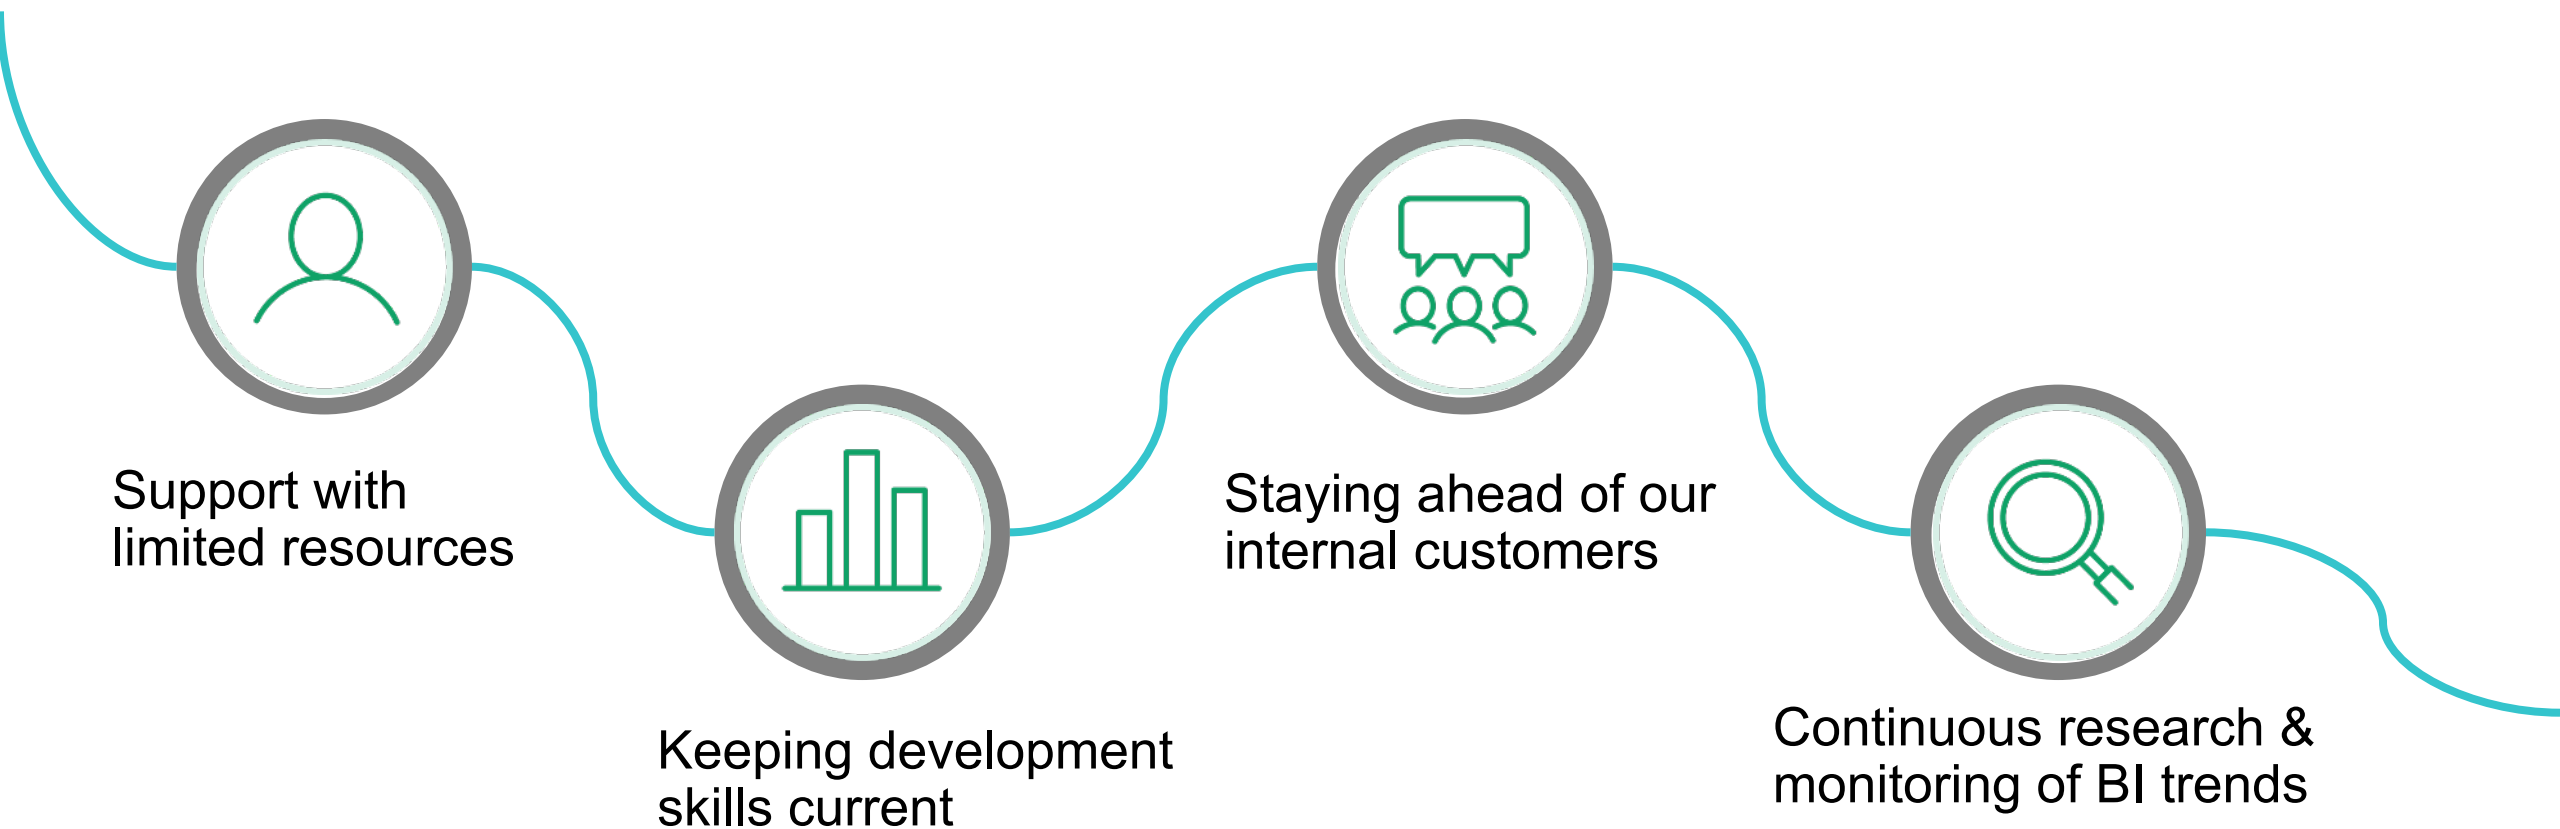

Supporting industry-leading BI capabilities

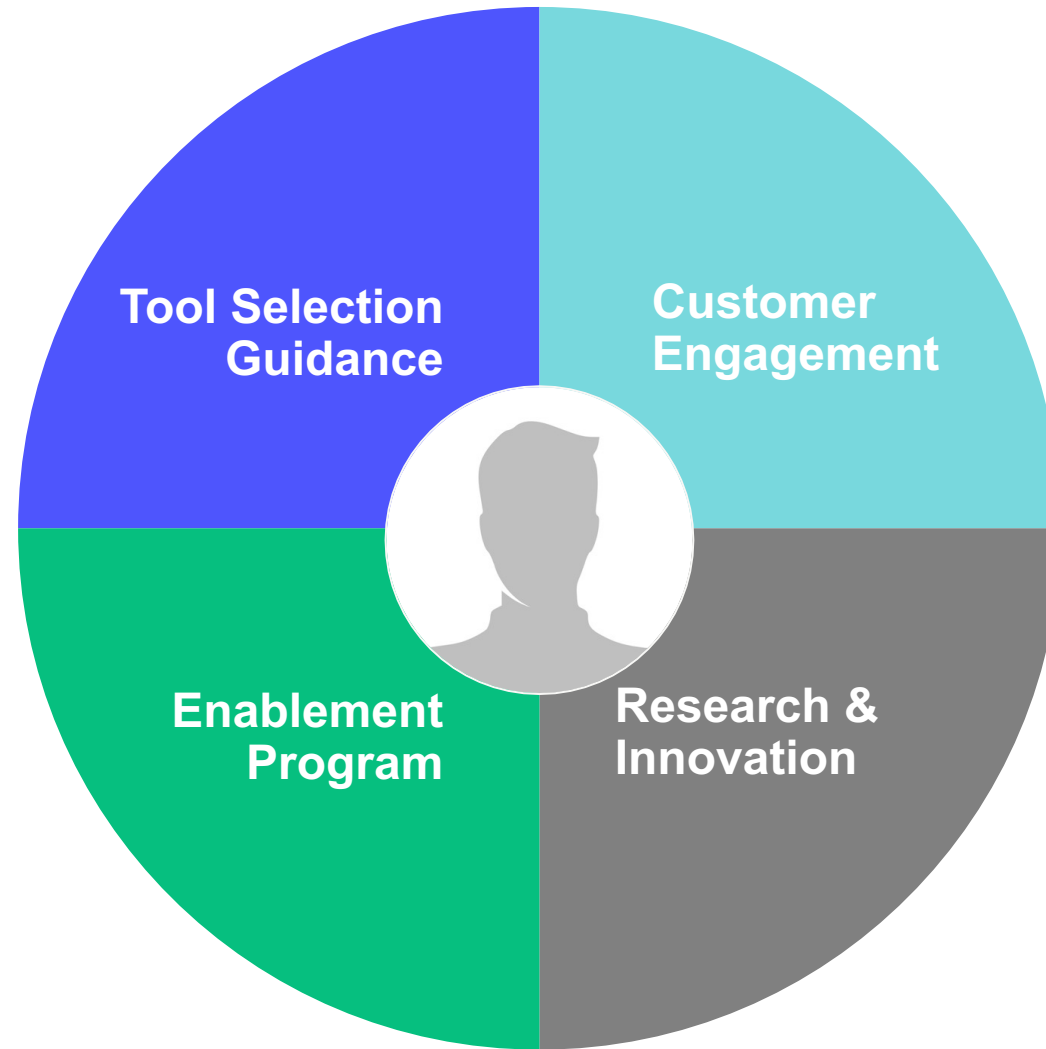

Provide tool selection guidance,
“front end” customer support,
enablement programs and
research

Provide deployment, platform/
tool, and upgrade/migration
related “back end” support

Challenges and Our Strategy Against Them

CoE Activities

Tool Selection Guidance

Tool Demos

Provide guidance based on requirements and use cases

Requirements questionnaire

Internal tool capability comparison

BI CoE Supported Tools

Tableau

MicroStrategy

Alteryx
