Notes
Equal Entry LLC, a third party accessibility consultant, worked with ThoughtSpot to define a set of User Scenarios (Appendix A) to assess ThoughtSpot. Regression testing of previous audit.

ThoughtSpot reviewed the detailed issue list, prioritized and fix several items. Exceptions in this document are pending accessibility issues, to be addressed in future product releases. This report, generated on date April 14th, 2020, supersedes any previous report covering these same scenarios.

Evaluation Methods Used: Manual testing using various browser agents, assistive technologies and inspection tools. Scenarios are in Appendix A. Additional details are in Appendix B.

Smarter Decision Making
This report covers the degree of conformance for the following accessibility standard/guidelines: Web Content Accessibility Guidelines 2.1 at https://www.w3.org/TR/WCAG21/, at level A and AA.

Terms
The terms used in the Conformance Level information are defined as follows:

Supports: The functionality of the product has at least one method that meets the criterion without known defects or meets with equivalent facilitation.
Partially Supports: Some functionality of the product does not meet the criterion.
Does Not Support: The majority of product functionality does not meet the criterion.
Not Applicable: The criterion is not relevant to the product.
Not Evaluated: The product has not been evaluated against the criterion. This can be used only in WCAG Level AAA.
**WCAG 2.1 Report**

**Note**
When reporting on conformance with the WCAG 2.1 Success Criteria, they are scoped for full pages, complete processes, and accessibility-supported ways of using technology as documented in the WCAG Conformance Requirements.
